## EDUCATION

### DIPLOMA IN COMPUTER SCIENCE & MATHEMATICS

UITM KUALA TERENGGANU  
2016 - 2019

### BACHELOR OF COMPUTER SCIENCE (HONS.) COMPUTER NETWORKS

UITM JASIN MELAKA  
2020 - 2022

I am submitting my resume to you with great interest in the hopes of obtaining an fresh graduate position with your company. As a current IT student at UiTM Jasin Melaka, with an expanding knowledge of various IT systems and implementations, I am confident that I would significantly benefit your organization as your next junior website developer.

I have the experience needed to create and design CMS website, web-based applications, and websites using template, hard-coded HTML, CSS and simple PHP. I'm familiar with modular and object-oriented programming, as well as application design. I've worked with MySQL before. I am also well-versed in CSS, HTML5, and PHP. I eager to learn more about new stack and willing to discipline myself by obeying schedule and guidelines.

While interning as a Web Administrator at ProteinLab Malaysia, I was in charge of their EasyStore-built website. Also, I joined the marketing team, which taught me how to work with e-commerce platforms like Shopee, Lazada, and Taboo. As an added bonus, designing the ProteinLab product banner allows me to hone my Photoshop skills.

Continuing my career as an Website Developer intern at the Pusat Kemahiran IRC make me gain more experience especially on the CMS Website Development. Working with existing engineers to update, maintain, and improve the company's existing website offered me more HTML, CSS and PHP knowledge.

I have excellent organizational skills and the ability to work on multiple projects simultaneously. I also have excellent problem solving skills along with great time management, estimation and communication skills.

With my academic background in basic IT functionalities, combined with my enthusiasm and dedication to success, I believe I would be a valuable addition to your team. This junior role would allow me to gain real-world experience in the technology industry while also developing and refining my application design skills.

I look forward to hearing from you!

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'A' followed by a series of horizontal strokes.
